

The MedTrava Group

ABOUT THE MEDTRAVA GROUP

The MedTrava Group is dedicated to helping individuals and organizations receive the highest quality healthcare at the most affordable costs. We are a trusted provider for outsourced healthcare services, connecting people with world class, reliable and affordable healthcare options available around the globe.

OUR MARKET

MedTrava addresses the needs of individual patients, self-insured companies and small to medium enterprises. The MedTrava Group provides a low-cost, high-quality healthcare option to individuals and companies shackled by burgeoning healthcare costs and restrictive healthcare plans in the United States.

SOME DAUNTING FACTS FOR AMERICANS

The cost of healthcare in United States has jumped five times higher than the rate of inflation. Employers spent more than \$350 billion on health insurance in 2006.

The United States spends more on healthcare per capita than any other industrialized nation; still 48 million Americans are without insurance, 120 million Americans are underinsured and 100 million baby boomers require increasing medical attention.

Nearly 50 percent of the bankruptcies in the United States are caused by illness and healthcare costs that Americans can't pay.

OUR HOLISTIC APPROACH – Connecting Mind, Body and Spirit

Unleash the pharmacy within – with personalized Ayurvedic treatments tailored to treat the whole you – not just your symptoms.

MedTrava is dedicated to helping our customers in their journey to better health and wellness. Our natural products and treatments, drawn from the ancient "science of life", Ayurveda, are based on the guiding principles that true health and harmony comes from a dynamic state of balance of mind, body and soul.

Developed 2,000 years ago in India, Ayurveda was officially recognized by the "World Health Organization" in 1976. In the United States, Ayurveda is considered an official type of CAM (Complementary and Alternative Medicine) and a whole medical system. Now considered one of the leading forms of holistic medicine available in the West, Ayurveda addresses all factors that influence our quality of life.

OUR COMMITMENT TO QUALITY

There is nothing more important to MedTrava than the quality of care for its patients. We evaluate and assess our partner facilities and leave no stone unturned to guarantee our clients obtain the best care anywhere.

MedTrava's experts utilize onsite visits and grade the facilities on their quality of care, the qualification of their surgeons and doctors and the modernization of their equipment. We look deep to determine a facility's procedural availability, its pricing and the overall patient experience.

And we don't stop there. Once a facility is placed on our recommendation list, MedTrava's evaluation team follows up its initial visits with routine onsite inspections that ensure that our facilities maintain the highest standards of care and continually earn their stated accreditations.

MEDTRAVA BENEFITS AND INSURANCE PRODUCTS

The MedTrava Health Benefit™ is a complete, packaged solution for companies interested in taking advantage of global medical care. This global medical benefit is a turnkey solution that links any client's current benefit plan to a global network of world-class providers and physicians.

For corporate clients, this entails the full management, administration and reporting on the services their beneficiaries receive, while individual patients receive the assurance of personalized coverage throughout their entire medical journey.

MedTrava has partnered with internationally accredited medical providers around the globe that offer high-quality care at considerably lower prices. We have pre-negotiated rates with each provider in our global network and have assembled fixed-priced medical procedure packages that can deliver substantial annual savings for each of our clients.

American Paul Opel on the procedure in India for his multilevel decompression and spine tumor complex -- *"Because the hospital did a full spinal MRI, rather than the plain lumbar MRI that would have been done in America, it found that I had also had a tumor in my neck. I am very grateful that the procedures were so thorough. It would have been a very dangerous thing not to know about it."*

Dr. Jim Allen of the United States had his Hip Resurfacing Procedure done in India – *"The whole experience has been really good. I came here expecting the best and anything I found here has exceeded my expectations, and anything I anticipated has gone much better than I ever hoped it to go. It's been a wonderful experience."*

PIONEERING, INNOVATIVE, GROUNDBREAKING

India has developed a world-class reputation for delivering superior medical care at an extremely affordable price. Top-notch centers around the country offer a range of procedures including open heart surgery, hip and knee replacement, cosmetic surgery, dentistry, ophthalmology and cancer therapy.

From treatment consultation, travel planning to implementation of health benefit plans, MedTrava offers a one-stop partnership to access high quality healthcare at the most affordable costs.
