

Outstanding Healthcare. Unbelievable Savings.

UNLEASHING
THE POWER OF
GLOBAL
HEALTHCARE.

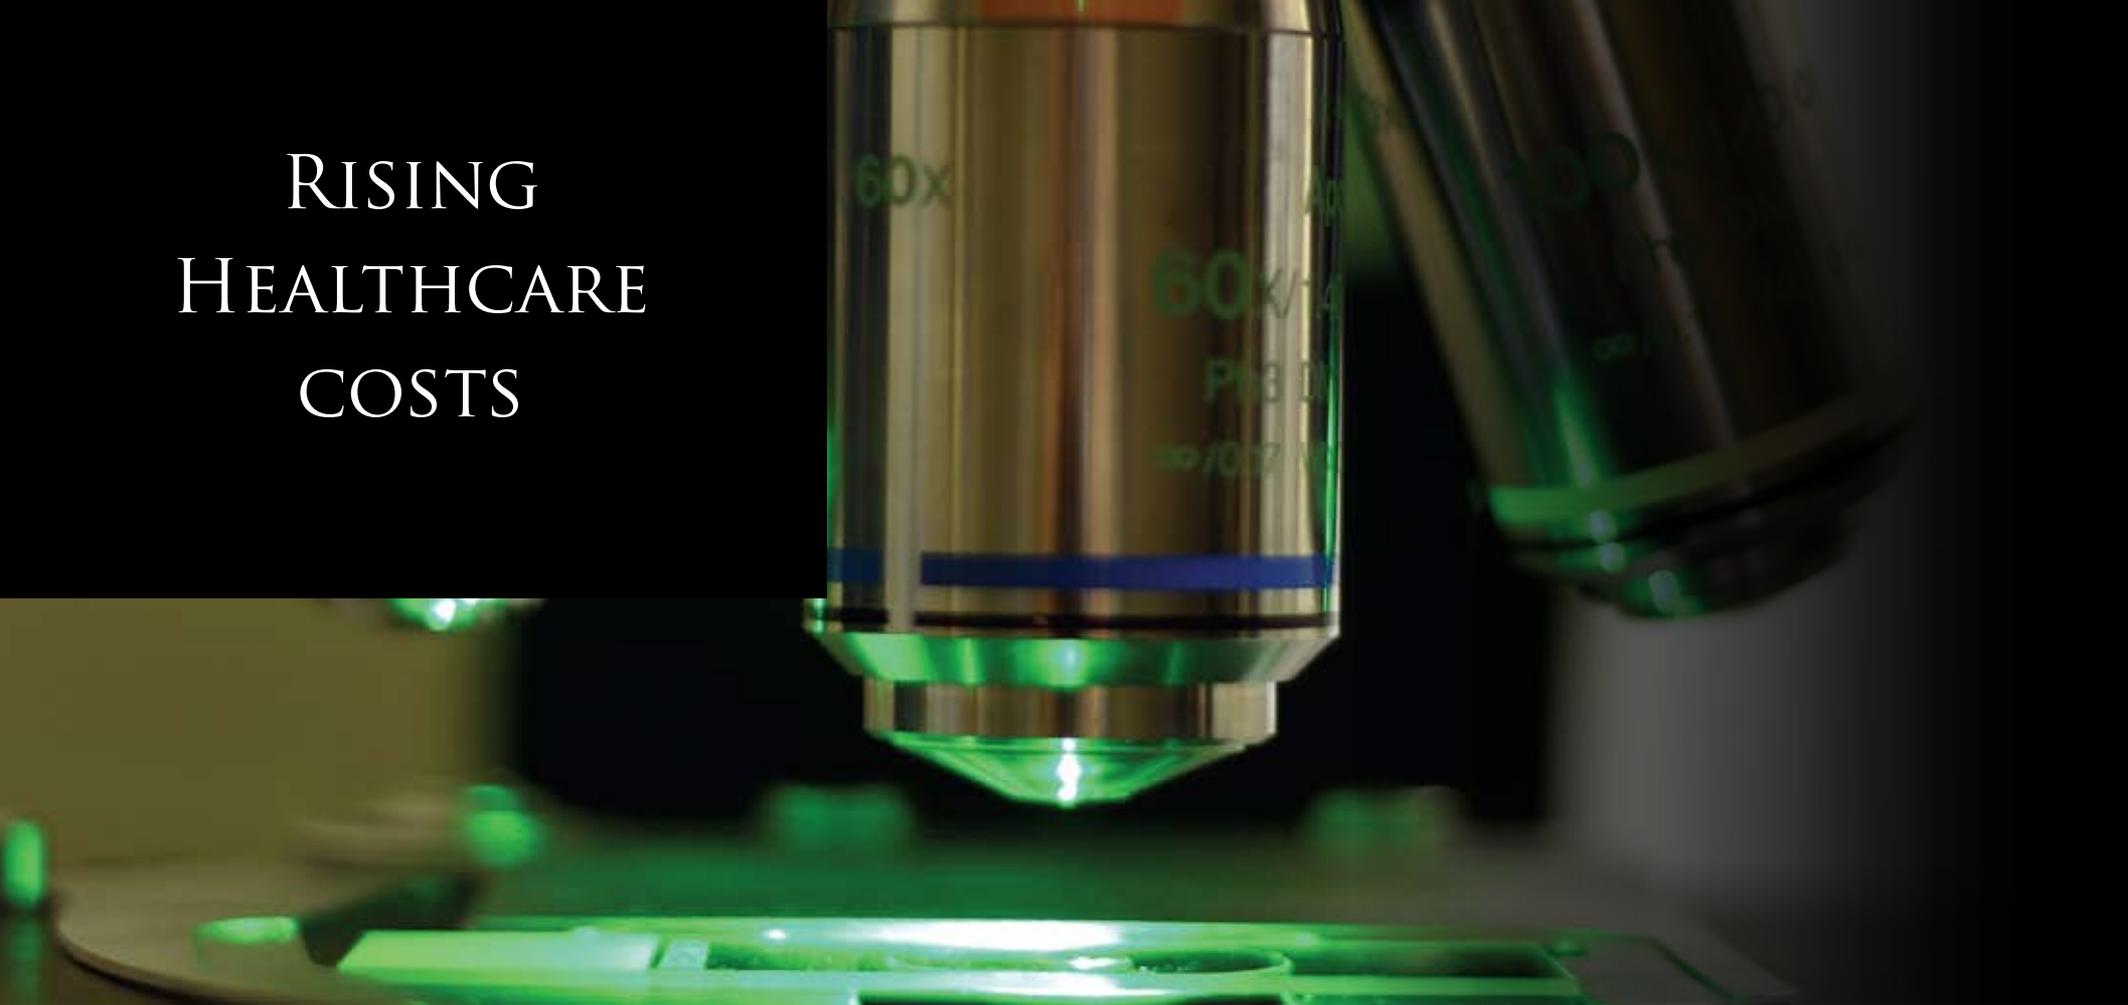

The MedTrava Group is dedicated to helping individuals and organizations receive the highest quality healthcare at the most affordable costs.

We are a trusted source for offshore healthcare services, connecting people with world-class, reliable and affordable healthcare options around the globe.

RISING HEALTHCARE COSTS

The rising costs of healthcare are becoming an increasingly bitter pill to swallow for many Americans. The cost of healthcare in the United States has increased five times higher than the rate of inflation, and companies and individuals are increasingly bearing the burden.

Even with such increases and the fact employers spent \$350 billion on health insurance in 2006, the quality of healthcare in the United States continues to diminish. Restrictive healthcare plans, high deductibles and even higher premiums are causing many Americans to forego major procedures, medications and treatments because they don't have the proper coverage or the cost is prohibitive. Baby Boomers are finding themselves caught in a no-man's land due to Medicare and Medicaid restrictions.

There is an alternative...MedTrava. More and more, companies and individuals are seeking high-quality, but affordable, healthcare options overseas. In 2006 nearly half a million Americans traveled overseas for medical treatment, and — with savings of as much as 80 percent on major procedures, who can blame them?

COMPLEX PROBLEMS, INNOVATIVE SOLUTIONS

TURN TO MEDTRAVA

MedTrava is a one stop solution provider committed to connecting you to the best quality healthcare at the most affordable price the world has to offer.

DIAGNOSTICS

At MedTrava, we believe in Preventive Healthcare. There are many diseases that develop over time that can be prevented or successfully treated by regular diagnostic checkups. However, the cost of tests including such as Sonography, ECGs, 2D Echos, Bone Density, Dental and Eye exams can be cost prohibitive, forcing many of us to avoid this essential step to overall wellness.

Leading medical centers and diagnostics clinics equipped with State of the Art technology and latest medical equipment have joined the MedTrava Network, bringing a full spectrum of customized diagnostic services and wellness checks designed specifically for you.

PROCEDURES

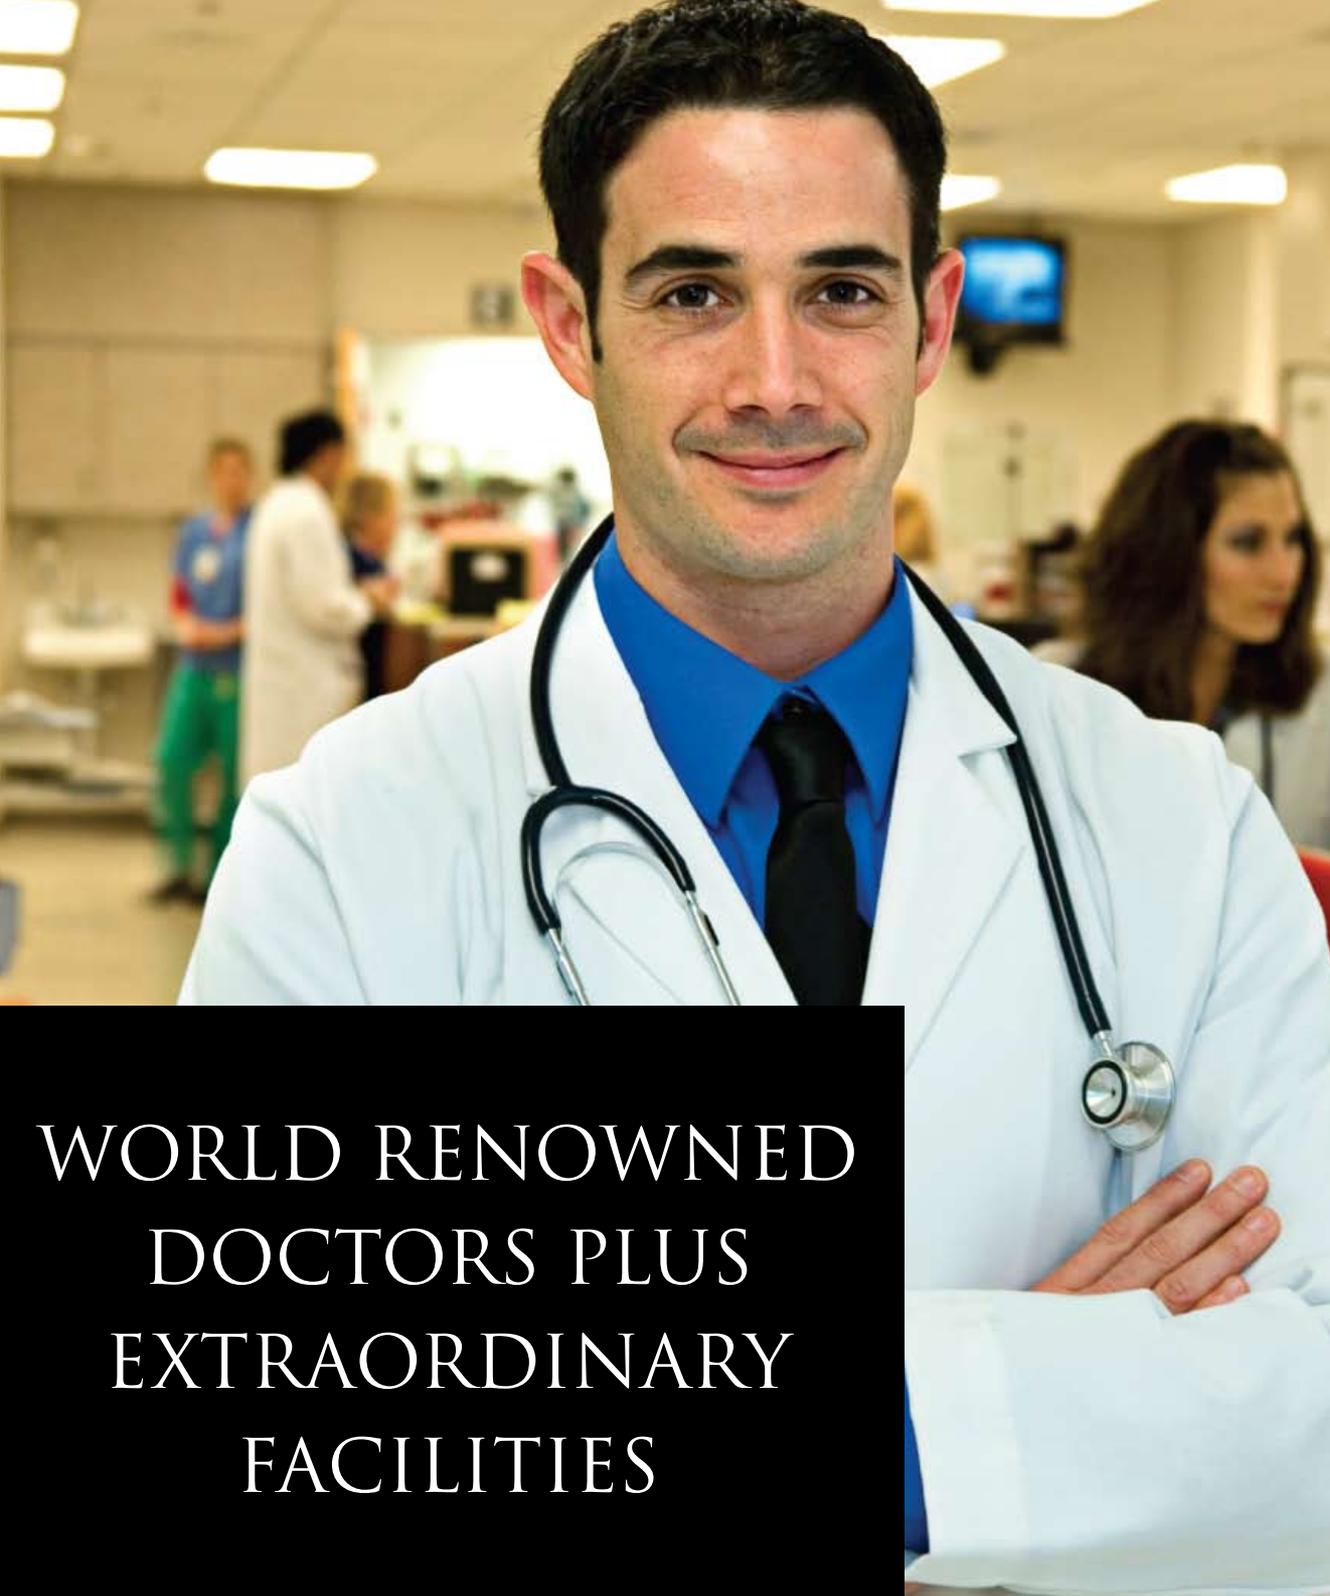

Through its partners, MedTrava gives you access to the best facilities and services across the globe. Procedures include Cardiology, Neurosurgery, Dentistry, Orthopedic, Cosmetic, Ophthalmic, Nephrology and Urology, Diabetology and Endocrinology and Human Reproduction.

Clinical outcomes are at par with the world's best centers, staffed by internationally qualified specialists and super specialists who have been trained at US, UK and other international institutions and facilities.

AYURVEDA

In addition to medical and diagnostic services, we offer a full range of Ayurvedic treatment, the science of life that has been practiced for over 5000 years, and officially recognized as a complementary and alternative medicine.

A non-invasive, all-natural, holistic form of medicine, Ayurveda treatments include yoga, herbal preparations and rejuvenating massage therapies to hasten the healing process, cleanse the body of built-up toxins, combat stress, and achieve balance and integration of the mind, body and soul.

STATE-OF-THE
ART MEDICAL
TECHNOLOGY
AT A FRACTION
OF THE COST

Carolyn Watt, USA
“Due to the absolute impossibility of paying for a hip replacement surgery in the US, I found an exceptional and experienced surgeon in India. I can now face the future with freedom of mobility and a wonderful on-going connection to new friends.”

THE JOINT COMMISSION INTERNATIONAL (JCI)

is an American-based accreditation body dedicated to improving the quality and safety of healthcare around the world. A rigorous on-site survey process ensures that health care facilities abroad meet the same stringent health and quality standards as those in the US.

BUILDING CONFIDENCE BY DELIVERING RESULTS

Paul Opel, USA, treated for multilevel decompression and spine tumor complex,
 “Because the hospital did a full spinal MRI, rather than the plain lumbar MRI that would have been done in America, it found that I had also had a tumor in my neck. I am very grateful that the procedures were so thorough. It would have been a very dangerous thing not to know about it.”

The Global Citizen Plan is a major medical insurance plan administered using HIPAA guidelines.

CONNECTING MIND, BODY AND SPIRIT

AYURVEDA

is an ancient system of healing developed in India more than 5,000 years ago. The system taps into natural sources to achieve a new way of life filled with balance, optimum health and wellbeing.

Ayurveda teaches that three vital forces – or dosha – govern the body and combine to create an individual's physiological make-up: vata, governs movement and relates to the nervous system; pitta, rules digestion and metabolism; and kapha, governs the body's organs. A healthy body has all three forces in balance. When they are not, illness occurs.

PIONEERING, INNOVATIVE AND GROUNDBREAKING

India has developed a world-class reputation for delivering superior medical care at an extremely affordable price. Top-notch centers throughout the country offer a range of procedures including open heart surgery, hip and knee replacement, cosmetic surgery, dentistry, ophthalmology and cancer therapy.

INDIA - THE NEW FRONTIER IN MEDICINE

Norma Kovacs, USA

"I had the pioneering Birmingham Hip Resurfacing surgery done at a MedTrava partner hospital in Mumbai, saving not only the bone in my hip, but \$60,000 over a similar procedure in the States – a significant saving, since I am uninsured. MedTrava coordinated the transfer of x-rays, MRI's and doctor's reports to the expert surgeon performing my surgery, and set up everything from the hospital stay to arranging a hotel, cellphone and personal car service for my postoperative vacation."

PROCEDURES

- More than 60,000 cardiac surgeries are done per year
- Zero waiting time for surgeries
- Clinical outcomes on par with the world's best centers
- Doctors are supported by more registered nurses per patient than in any Western facility
- Approximately 30,000 doctors and nurses graduate each year

COST ADVANTAGES

- Advanced surgeries cost as much as 10 times less than anywhere else in the world.
- Multi-organ transplants are successfully performed at ten percent of the cost of the West
- Daily hospital rates and prescription medications are significantly cheaper.

PIONEERING TREATMENT:

- Birmingham hip resurfacing
- Awake heart surgery
- Keyhole surgery
- Trans nasal brain tumor surgery
